Professional Summary

passionate Full-Stack Developer with strong foundation in Java, Web Technologies (HTML, CSS, JavaScript), and SQL databases. Currently completing graduation from Anna University with hands-on project experience in developing responsive web applications. Seeking opportunities to leverage technical skills in building scalable, user-centric solutions. Committed to continuous learning and contributing to innovative projects in the software development industry.

Technical Skills

- **Programming:** Java

- **Databases:** SQL Plus, PostgreSQL

- **Front-End:** HTML, CSS, JavaScript, React

- **Tools:** Git, GitHub

- **Soft Skills:** Communication, Problem Solving, Team Collaboration, Leadership

Experience & Projects

- **Student Management System**
  A Student Management System project typically uses Java for core logic, combined with web technologies and a database for full-stack functionality. Given your background in Java servlets, JDBC, Postgres, HTML/CSS/JS, and SQL, this aligns well with a practical implementation using those tools.

- **E-Commerce Platform**
  E-commerce Platform project using Spring Boot demonstrates full-stack skills with modern Java framework, REST APIs, and secure shopping features. Built for portfolio to showcase transition from servlets to enterprise-level development.

- **Banking System**
  Banking System project demonstrates core OOP principles through account management, transactions, and interest calculations in Java. Perfect for showcasing encapsulation, inheritance, polymorphism, and abstraction in resume projects.

- **Personal Portfolio Website**
  Designed and deployed a dynamic portfolio website using HTML/CSS , JavaScript to showcase web development.
